- 2017 Prop Tax 22,544

The Architect

Roland Terry was known for his work in the mid century modern design, Parisian influences and a draw of nature and art. He worked in both architecture and interior design simultaneously. His notable works include such landmarks as the Canlis Restaurants, Hilton Hotels, Lakewood Terrace and original Nordstrom Best Store in Seattle.

Roland's spaces focused on the pleasure of art, an intimate view or surprise... The attitude was open, generous and personal.
